

Transform Lives Through Education

United World Schools are partnering with your school to provide an education to children in rural areas who have no access to a meaningful alternative

These three brothers live in the remote community of Mude in Sankhuwasabha Nepal.

With no school to go to, their mother was married at 14 and now looks after her children, farm, pigs and chickens.

These three boys now attend UWS Mude and have the chance for a very different life. They still help out on the rice farm but during the day they learn how to read, write and count. When they grow up they want to be teachers or to run a local shop. With the help of everyone at Churcher's College they now can.

Supporting thousands more children like these in UWS Mude.

Education transforms lives. UWS are dedicated to improving educational opportunities for some of the world's poorest children who live in remote, post-conflict regions.

Put simply, UWS build schools and support communities by providing a free basic education. UWS can provide a child's education for less than £1 a day – **and together we can make a big difference to the lives of thousands of children.**

Everyone is invited to take part in the challenge of supporting a UWS Community School. In doing so:

- Learn about the school project and the community
- Lead and inspire others as an ambassador for educational equality
- Enhance your university application or CV with a UWS Global Citizenship badge

Next steps: look out for more information on the partnership, how you can get involved, make a difference and be an active global citizen.
